Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

A student may request a course waiver for foundational (non-clinical and non-research) courses by presenting a transcript and syllabus to the course instructor. The course instructor must be satisfied that the student possesses sufficient knowledge, skill, and experience relative to the particular course's content. If the instructor approves the waiver, she or he must sign the course waiver form which is then submitted to the Associate Dean or Dean for approval. Please note: A student can be waived from up to four foundational courses. Course waivers do not shorten the length of the program.
